

31 October, 2007

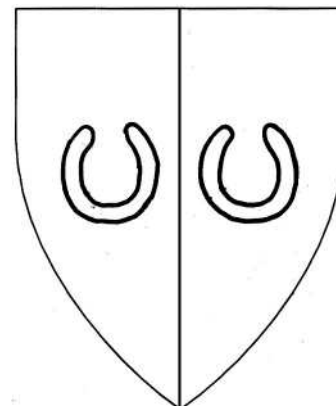

Unto the populace of Atlantia, greetings from Alisoun MacCoul of Elphane, Golden Dolphin Herald!

Herein you will find the results of the deliberations of the College of Heraldry of Atlantia during the month of October, 2007.

### ACCEPTANCES

The following submissions have been accepted and included on a Letter of Intent to the College of Arms from Atlantia dated 29 October, 2007:

**Dubhghall mac Donnchaidh.** Name and device. Per pale sable and vert in fess two horseshoes inverted argent.

**Friderich Weber.** Device. Or, on a chevron azure three mullets Or. This was pended by Golden Dolphin for redrawing in September, 2007.

**Mariana de Salamanca.** Name (see PENDING for device).

**Matthew of Battle.** Badge. Gules, a fess between two mullets pierced, all within a bordure Or. This was pended by Golden Dolphin for redrawing in September, 2007.

**Michel von Schönsee.** Household name and badge for Duck and Turtle Tavern. Per bend sinister vert and sable, a duck naiant to sinister and a turtle tergiant fesswise contourny Or.

**Od Þorgestsson Skallagrimssonar.** Name. This was pended by Golden Dolphin in September, 2007, for paperwork problems which have now been resolved.

**Philip Bell.** Change of device. Sable, a spear bendwise sinister argent enflamed proper. This was pended by Golden Dolphin in September, 2007, for a visual check of a potential conflict with an ancient piece of Society armory whose blazon was unclear. The Laurel Office having provided a scan of the original armory, it is clear that no conflict exists.

**Rose Galen.** Badge. Azure, a turtle tergiant between six roundels in annulo Or. This was pended for redrawing by Golden Dolphin in September, 2007.

**Susanna inghean Aoidh.** Name.

## RETURNS

The following items have been returned for further work:

**Godai Katsunaga.** Name. Unfortunately, the submitter documented both elements of his name only from a samurai wiki article and the Laurel Office has ruled that such articles are inherently unreliable without supporting documentation from more reliable sources. We were able to find documentation for *Katsunaga* as a *nanori* of the Sengoku period from Nostrand's *Name Construction in Medieval Japan*, but were not able to find similar supporting documentation for *Godai*. As the submitter allowed all changes to the name, we would have used another similar-sounding surname from the Sengoku period to give him the authentic name for that period that he desired, but unfortunately there were no really similar-sounding surnames from that period in the usual reliable sources for Japanese names.

**PENDS**

The following items have been pended for the stated reasons:

**Ailis Ó Briain.** Name. Since the submitter is using an entirely Irish name, it is necessary for her to use a feminine patronymic form. As the given name is early modern Irish, this requires the use of either *inghean* or *inghean uí* and lenition of the last name element to *Bhriain*. This really exceeds the minor changes the submitter allows so we have pended this to consult with her to see whether she will accept modification of the name and determine whether she prefers *inghean* or *inghean uí*.

**Mariana de Salamanca.** Device. Or, in pale three ferrets statant sable within a bordure engrailed azure. This was pended for redrawing by Golden Dolphin staff to make the ferrets more identifiable as such.

**Muirenn ingen Áeda.** Resubmission of device. Or, a triquetra within the horns of a decrescent, all within a tressure purpure. This has been pended for redrawing by Golden Dolphin staff with an acceptably period decrescent and an orle that meets current standards for visibility.

Your servant,

**Alisoun**
